

Power Linker is in business since year 1981

Power Linker, has a unique combination of expertise and experience in a specialized area of Electrical

Business areas of our company are,

Power System Study

On Power System Analysis Software **ETAP** (Electrical Transient Analysis Program) & **PSCAD** (Power System Computer Aided Design) software's

Testing and Commissioning of Electrical Systems and its equipment's.

From 400 kV to 415 Volts

Power Quality Measurement and recording parameters such as Power, Energy, Voltage sags, swells, Transient measurement of time, Voltage, Current and Harmonic Measurement

Detail Design Engineering of Electrical System from 220 kV SW Yard to 415 V Distribution

Condition Monitoring Testing of all major Power Equipment such as Generators, Motors, Transformer's, Power Cables, CT's, PT's, LA's, etc.

Conducting Power Engineering Training Courses

Above Business activities are executed under guidance of following key personnel'

Mr. H. C. Mehta

M. Tech., IIT-B
Experience since 1972,
An Ex.Tata Consulting Engineer

Mr. Jay Mehta

M. Tech., VJTI
Experience since 2004
